

Project Engineer – Site & Energy Team

Stahl Sheaffer is currently seeking to hire a **Project Engineer** to join our Site and Energy Team in our Canonsburg (Southpointe), PA office. This position will primarily focus on Land Development but could occasionally support our energy team on an as needed basis.

Responsibilities:

- Lead technical design aspects for projects in land development and energy sectors
- Assist the project team in the development of plans, technical specifications, and regulatory submission
- Develop feasibility studies
- Develop design details and technical recommendations
- Assess the cost-effective constructability of the project and generally evaluate the quality of the project
- Provide day-to-day technical support, guidance, and input
- Lead in the preparation or modification of reports, studies, permits, and designs for various projects
- Lead junior engineers, designers, and CADD technicians in the delivery of technical deliverables
- Perform peer reviews and be involved in our quality control process

Minimum Requirements for the Position:

- Bachelor's or master's degree in Civil Engineering
- Licensed Professional Engineer in the State of Pennsylvania, Ohio and/or West Virginia
- The ability to obtain state and federal background clearances to permit working on-site when necessary
- A valid driver's license and daily access to a motor vehicle

Preferred Qualifications:

- Five to ten years of experience site development relating to land development or energy sectors
- A highly organized approach to tasks and a high level of initiative
- Working knowledge of site civil engineering, environmental and municipal regulations, drainage, stormwater management, and E&S control as they relate to design
- Proficient working knowledge of CADD programs especially Autodesk Civil 3D
- Proficiency with Microsoft Office programs including Word, Excel, and PowerPoint
- Excellent oral, written, and interpersonal skills with co-workers and clients
