

▶ Summer Intern – Energy/Environmental/Site

Stahl Sheaffer is currently seeking to hire a **Summer Intern** to join our Energy/Environmental/Site Team at our Clearfield, Pennsylvania office location.

Energy/Environmental/Site Summer Intern Responsibilities:

- Completing general energy/environmental/site support services, which may include:
 - Performing drafting of construction documents
 - Completing or checking design computations
 - Assisting in activities outside of the office such as inspection and completing technical testing
 - Assistance in the completion of reports, studies, and permitting

Energy/Environmental/Site Summer Intern Required Skills & Experience:

- Candidates who have completed their third year in the engineering program will be given first consideration for the position; candidates who are in their second year in the engineering program may also be considered
- Excellent oral, written, and interpersonal communication skills

Minimum Requirements for the Energy/Environmental/Site Summer Intern Position:

- Must be a current engineering student in civil engineering, environmental, or a related field of study
- The ability start employment at the candidate's earliest convenience following the Spring 2022 semester
- The ability to work at our Clearfield office on a part-time basis between the hours of 8 am – 5 pm Monday through Friday
- A valid driver's license and daily access to a motor vehicle (*preferred*)

Stahl Sheaffer Engineering is a multi-discipline civil/structural engineering firm that has been providing services since 2006.
