- Laboratory Material Testing
- Soil Testing & Verification

Stahl Sheaffer provides construction inspection and management services with individuals who possess a valuable combination of practical field experience and technical understanding. They serve as the point of contact for communication between the owner and contractor.

All inspectors are provided with a 'Construction Inspection Checklist' to ensure projects are constructed per specifications, requirements, and special provisions. Stahl Sheaffer has a record of maintaining all bookwork in a current state and closing out projects within a month of completion. Our inspectors maintain current certifications in areas of expertise (NICET, NECEPT, ACI, etc.), and we provide supplemental in-house training.
