

# Elk County ATV Feasibility Study

- **Owner:**  
Elk County Riders
- **Services:**
  - Environmental Constraints Identification
  - Water Resource Mapping
- **Year Completed:**  
2020

## Village of Byrnedale & Benezette, Elk County, PA

Stahl Sheaffer completed a cursory environmental constraints review and water resource mapping for two potential trail sections for the Elk County Riders trail group. Identification of environmental constraints included wetlands, streams, cultural resources, and threatened and endangered species. Stahl Sheaffer also evaluated potential waterway permitting needs for the 1.9 miles of alternative alignments and a total review area of approximately 47 acres. The identified constraints and mapping will be used to plan trail alignments and estimate construction cost.
