

GIS Analyst

Stahl Sheaffer is currently seeking to hire a **GIS Analyst** for our team at any of our office locations, preferably Morgantown, WV.

Responsibilities:

- Utilize GIS software to collect, analyze, and interpret geographic data.
- Create accurate, high-quality maps, Geospatial products, and databases.
- Publish data to Portal/ArcGIS Online and create web maps and web applications in ArcGIS Online.
- Prepare and present reports, maps, and visualizations for internal and external clients.
- Collaborate with cross-functional teams to provide geospatial support for various projects.
- Develop and implement efficient workflows for data management and analysis.
- Stay up to date with the latest advancements in GIS technology and methodologies.
- Collaborate with the team to identify and apply new technologies within the company.

Minimum Requirements for the Position:

- Two years of related experience that would provide the required knowledge and skills to perform the responsibilities of this position.
- BA/BS degree in GIS, Geography, Environmental Science, or related field.
- Excellent computer and technical skills, including ArcGIS Pro, AGOL, Portal, Enterprise, and MS Office Suite.
- Effective oral and written communication skills, and the ability to complete projects independently and/or in collaboration with the team in a responsible and timely manner.
- Strong understanding of spatial data analysis techniques and methodologies.
- Proficiency in data management, manipulation, and visualization.
- Excellent problem-solving and critical-thinking abilities.
- Ability to work both independently and within a team in a fast-paced environment.
- A valid driver's license and daily access to a motor vehicle.

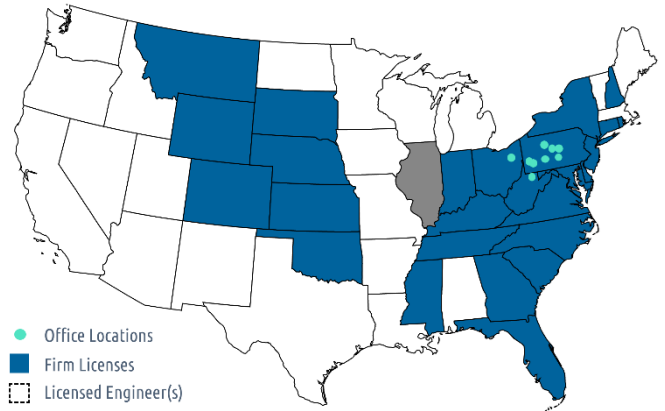

Preferred Qualifications:

- Prior experience in energy, or civil/structural engineering.
- Prior experience with mobile applications (Survey123, Collector/Field Maps, Go).
