

Liberty Hollow Trail

Northumberland Borough, Northumberland County, PA

- **Owner:**
Northumberland Borough
- **Services:**
 - Surveying
 - Site Design
 - Permitting
- **Year Completed:**
2020 (Construction Scheduled)

The Liberty Hollow Trail project consisted of the design of a new pedestrian trail along an existing sewer line right-of-way to form a connection between Washington Avenue and Susquehanna Road in Northumberland Borough. Stahl Sheaffer provided surveying, stormwater design, wetland delineation, and permitting services. Wetlands were present along a portion of the corridor. Impacts were minimized which allowed for the use of a General Permit-7 Minor Road Crossing permit for a section of trail crossing the wetland.

The following permits were required:

- Erosion and Sedimentation Control Plan
- NPDES Permit
- DEP General Permit-7 (Minor Road Crossing)

Eastern Box Turtle observed during wetland delineation.
