

▶ Designer – Transportation

Stahl Sheaffer is currently seeking to hire a **Designer** to join our Transportation Team at one of our Pennsylvania office locations in State College, Clearfield, or Canonsburg.

Transportation Designer Responsibilities:

- Assist the Project Team in the development and design of road and highway projects which consist of the plans, specifications, and estimates
- Develop feasible design alternatives and compare significant parameters
- Review design details and coordinate technical recommendations
- Assess the cost-effective constructability of the project and generally evaluate the quality of the project
- Provide day-to-day technical support, guidance, and input
- Assist in the preparation or modification of reports, studies, permits, and designs for various projects
- Instruct CAD technicians to reduce designs to working drawings

Transportation Designer Required Skills & Experience:

- Up to 5 years of experience with engineering projects relating to land development, stormwater, and transportation designs and development of bid packages for project advertisement into construction
- Working knowledge of highway design engineering, design manuals, roadway design standards, drainage, stormwater management, and E&S control as they relate to design
- Proficient working knowledge of Microstation, Open Roads, and Autoturn
- Proficiency with Microsoft Office programs including Word, Excel, and PowerPoint
- Excellent oral, written, and interpersonal communication with co-workers, clients, and the general public

Minimum Requirements for the Transportation Designer Position:

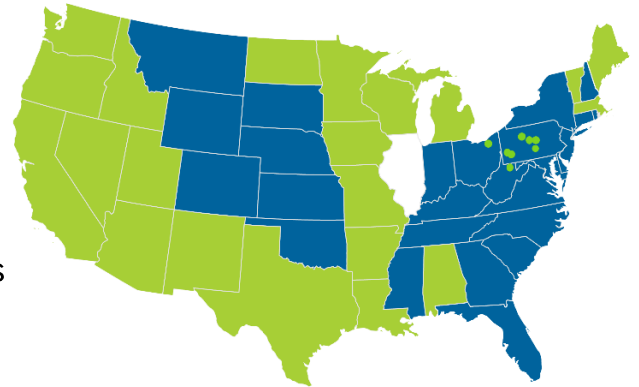

- Engineer-in Training (EIT) preferred
- Bachelor's degree in Civil Engineering
- A valid driver's license and daily access to a motor vehicle
- The ability to obtain state and federal background clearances to permit working on-site when necessary
