

Project Engineer – Building Structures

Stahl Sheaffer is currently seeking to hire a **Project Engineer** to join our Building Structures team at our State College office. Our team is currently working with a host of clients in the architectural and building construction related markets including design of new construction & renovation projects, building forensics and rehabilitation, precast design and shop ticket development, steel connection and miscellaneous metals design with design experience using all common materials and clients include architects, state agencies, contractors, and private owners.

Responsibilities:

- Assist the Project Team in the development and design of building structural projects which consist of the plans, specifications, and estimates
- Develop feasible design alternatives and compare significant parameters
- Review design details and coordinate technical recommendations
- Assess the cost-effective constructability of the project and generally evaluate the quality of the project
- Provide day-to-day technical support, guidance, and input
- Assist in the preparation or modification of reports, studies, permits, and designs for various projects
- Instruct CADD technicians to reduce designs to working drawings

Minimum Requirements for the Position:

- Bachelor's degree - Civil Engineering or Architectural Engineering (structural emphasis)
- Licensed Professional Engineer
- At least six years of experience in building structures
- The ability to obtain state and federal background clearances to permit working on-site when necessary
- A valid driver's license and daily access to a motor vehicle

Preferred Qualifications:

- Experience with modeling and drafting using Revit
- Experience with structural design software packages using RAM/Elements and TEDD
- Experience with field inspections, design, and production of construction drawings, preparation of specifications, and construction administration
- Proficiency with Microsoft Office programs including Outlook, Word, and Excel
- Excellent oral, written, and interpersonal communication with co-workers, clients, and the general public
