

Environmental Scientist – Site and Energy Team

Stahl Sheaffer is currently seeking to hire a goal-oriented skilled professional Environmental Scientist Technician to join our Site and Energy Team at any of our office locations. We are looking for individuals that are ready to contribute to a growing organization while fostering their own professional development.

Responsibilities:

- Support all environmental tasks for engineering projects including land development, energy development, recreation, and transportation.
- Work directly with experienced field staff as well as independently in completing field assignment and reports.

Minimum Requirements for the Position:

- Minimum of 2 years experience that includes the following skill areas and basic requirements:
 - Wetland delineation and report writing
 - Waters and wetland impact permitting
 - Natural resource assessments
- Ability to complete field work in various field conditions and terrain
- Ability to accommodate occasional overnight travel
- Ability to take direction and carry out assigned task with minimal supervision
- Familiarity with Microsoft Office programs including Word, Excel, and PowerPoint
- A valid driver's license and daily access to a motor vehicle

Preferred Qualifications:

- GIS experience
- Erosion and Sediment Control design and NPDES permitting experience
- Threatened and endangered species survey experience
- NEPA documentation experience
- Phase I ESA experience
- CADD drafting capabilities
- Ability to work effectively with other technical professionals
- Ability to write legibly and convey technical information as well as the ability to effectively present information
- Excellent oral, written, and interpersonal communication with co-workers, clients, and the general public
