Stahl Sheaffer Engineering (Stahl Sheaffer) announces the opening of a new office in Ebensburg, PA – a move intended to improve proximity and accessibility for existing clients and to better accommodate existing and future employees.

This location will allow us to build productive relationships with municipalities, architects, developers, and engineers in additional areas where our civil and structural expertise is needed. The new office is also part of a strategic focus to attract and retain talented professionals in the areas where they choose to live. Ebensburg will be immediately occupied by seven engineering and technical staff. We are currently hiring and seeking to fill a variety of positions across all of our locations. Find out more at: www.stahlsheaffer.com/career-opportunities. Last year, Stahl Sheaffer hired 18 people, a 20% growth rate that is continuing in 2023.

Stahl Sheaffer Engineering provides survey, site and land development, bridge inspection and design, building assessment and design, traffic and transportation engineering, and construction inspection services, and is dedicated to continuously growing our expertise and our footprint for better responsiveness. This includes innovative tools such as terrestrial and mobile LiDAR scanning, 3D Building Modeling, and the latest industry software programs with cloud-hosted file sharing.

Founded in 2006, Stahl Sheaffer has 100+ employees and [9 locations in Pennsylvania, Ohio, and West Virginia](#). Stahl Sheaffer was ranked for the fifth consecutive year in the ENR Mid-Atlantic Top Design Firms list and has been selected as one of Pennsylvania Business Central's Top 100 Organizations for 2023. www.stahlsheaffer.com
